

BM Sport Weather

Your personal sport weather bot ■■■

A wedding gift from Francien ♥

What is this?

Every morning at 07:30, the bot sends each of you a personal Telegram message with the weather forecast and whether it's a good day for running, cycling, or swimming.

The messages are different for each of you — it knows your favourite sports and keeps it honest. No fluff.

What you'll see

1. Weather summary: temperature, wind, rain chance
2. Sport ratings: ■ Great ■ OK ■■ Caution ■ Avoid
3. Best time window for each sport
4. A personal message — just for you

Tap the sport buttons for a detailed hourly breakdown.
